

COST EFFECTIVE KEY MANAGEMENT AND ASSET MANAGEMENT

NOW YOU CAN USE THE MOST ADVANCED SOFTWARE AT AFFORDABLE PRICES.

KeyNET is designed to pay for itself, saving time and money. KeyNET is the most flexible software design on the market. KeyNET can be deployed in five deployment models; with three entry levels and a variety of optional add-ons.

You select the deployment model that meets your needs and the features you want. Customize the KeyNET Program to fit your specific requirements. Add features at any time.

Designed for use by Commercial, Industrial, Governmental, Institutional, School Districts, Hospitals, Colleges, Universities, Utility companies, Service and Retail Lockshops - This is the most powerful and effective solution for Advanced Key Management.

FIVE DEPLOYMENT MODELS

1. Subscription (Recommended) - We do it ALL!! Use your existing browser to access your data. Your databases are maintained in their own zone, on our secured servers. We perform your backups, system and database upgrades, database maintenance, and remote data storage.

2. Standalone (Dedicated PC or Virtual PC) - Ideal for the ONE-PERSON or single location operation. All information resides on one PC, or laptop.

3. Site Based (Web-Appliance or Customer Controlled) - Designed for large operations where regulation or policy dictate the data must remain on-site.

Site Based Solutions are designed for Industrial and Institutional facilities with Computer and IT personnel capable of maintaining their own system and performing backups.

Web Appliance - The KeyNET server resides at the customer's location. updates, backups, and other support issues are provided remotely.

Customer Controlled - The KeyNET server resides at the customer's location. Local Computer and IT personnel maintain their own system and perform backups.

CUSTOMIZE YOUR KeyNET PROGRAM

3 PROGRAM PACKAGES, WITH ADD-ON FEATURES FOR INCREASED FLEXIBILITY AND CUSTOMIZATION.

Start small and add-on later. Depending on your needs, KeyNET has created three packages as starting points. Features can be added by stepping up to the next package level or ordering specific add-ons.

LITE - Includes everything you need to get started with key management, and has a wide range of customizable options available. Even in its most basic configuration, KeyNET LITE has more features than other software programs on the market.

PROfessional - Adds the dynamics of KEY ISSUE. The PRO model includes all lockshop functions, any two masterkey generation systems and key issue operations. Add-ons like Authorizations, eKeyRequest, eKeyOrder, eSignature, ePhotoID, iKeyID, KeyRings and Multiple Key Issue are available. The ideal starting point for School Districts, Hospitals, Colleges, Universities, Utility Companies, Commercial, Industrial and Governmental facilities.

ULTRA - Is our complete key and security management system, and includes every available system option in one powerful package (three MKI sites included), for SUPERIOR KEY MANAGEMENT.

Share information with other databases. Spectrum Group can build customized import or export utilities to share information between databases. Interface with HRM databases to insure consistent information across multiple databases, including Photo ID systems.

FEATURES

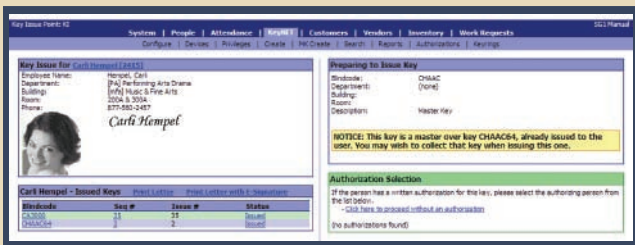

KeyNET is modular in Design, allows for additional modules and features to be added without disrupting or corrupting your existing data. Each option adds powerful functionality to your KeyNET program.

SYSTEM

The SYSTEM module allows your system manager to determine each user's privileges, and how your program is customized. Our eManuals are easily accessible from within the program, and are available to each and every user that has been granted the privilege to log on.

PEOPLE

The PEOPLE module stores and administers information for everyone who has a data record in your system. PhotoID & eSignature are available on each record.

NOTIFICATIONS - Create auto-notifications for eKeyRequests, eKeyOrders, end of the semester turn-in or employee check-out are available.

CUSTOM INTERFACE UTILITIES - Share information with Human Resources, Student Admissions, Photo ID systems, One-Card systems, Debit systems, or...are available.

LOCKSHOP

- Prevent Key and Hook duplication
- Tracks each key created from creation to destruction, and administers issue limits
- Complete History of each key
- Cut directly to Computerized Key Machines
- Support and Service Multiple Key Issue sites
- Generates Complete Masterkey Systems
- Pinning Charts
- One Page Information
- Core Location History
- Customized reports by any field, or combination of fields

KEY ISSUE

- Complete Key Issue Tracking and History Reports
- Eliminate UNAUTHORIZED key issuance
- eKeyRequest and eSignature features available, with Authorization verifying
- Eliminate excess or duplicate key issue
- LOST and DELINQUENT key reports
- Individual Issue History
- Interfaces with third party Personnel, PhotoID and Card Access systems

SERVICE & SUPPORT

Spectrum Group continues to enhance KeyNET with additional features and enhancements. These upgrades are provided automatically as part of your Annual License and Support Contract. Because we know that cost-effectiveness is of primary concern to our customers, we include support as part of your annual contract to help ensure that your software and data are kept operational and updated at all times. KeyNET's powerful features quickly pay for themselves, resulting in powerful cost savings to your operation in both the short...and long term.

WorkNET™

Work request processing, estimating, cost centers, request status, calendars, tasks, preventive or recurring maintenance, multiple inventories, vendor lists and more.

ProjectNET™

Project tracking, calendars, task assignments, time usage, journal entries, attachment storage, notifications and more.

DeveloperNET™

Door & hardware schedules, design specifications, AutoCad linking, projects, calendars and more.

PHOTO ID

Local capturing or third party interfacing.

CCTV - DVR

All technologies

CARD ACCESS

Active-On-Line and standalone interfaces

RETAIL LOCKSHOPS

Now you can step up and make recurring revenue while reducing your service time. KeyNET LITE is the perfect starting point (less than \$1,000.00 to start).

Do you have clients who could use key issue? Large companies tenant buildings, condominiums, industrial sites, city and county facilities, installations of any size can benefit from KeyNET. You have access to the Lockshop portion of the program and each of your customers can be granted access to the their Personnel and Key Issue modules.

Your customers will LOVE you for this.
